

## WELCOME TO

# "ELECTRICITY MARKET INTEGRATION – A NORTH EUROPEAN PERSPECTIVE"

– a seminar by Svensk Energi – Swedenergy and NEPP – North European Power Perspectives

**3rd of March in Stockholm**

- We will discuss the benefits, costs, challenges and opportunities of further electricity market integration.
- We will explore which knowledge and experience we have today and what we need to learn more about in the future.
- Topics of the seminar include electricity-system scenarios, the role of the TSOs, capacity markets, and welfare effects of increased market integration

**When?** 3rd of March 09.30 – 16.30 CET

**Where?** City Conference Centre, Norra Latin, Drottninggatan 71B, Stockholm

**Link to map:** [Click here to find the City Conference Centre](#)

**Registration:** [At the latest 20th of February. Klick here for registration](#)

# "ELECTRICITY MARKET INTEGRATION – A NORTH EUROPEAN PERSPECTIVE"

## Programme

Moderator: Mats Nilsson, Swedenergy

09.30 Coffe and registration

10.00 Welcome

*Kjell Jansson, Swedenergy*

Scenarios for the development of the North European power system  
– opportunities and challenges

*Thomas Unger, Profu*

The German perspective of increased North European electricity-market integration

*Stephanie Ropenus, Agora Energiewende*

Integration of electricity markets and competitiveness

*Bengt Kriström, Swedish University of Agricultural Sciences*

Break

Increased transmission capacity – which are the major challenges and is it beneficial from an economic point of view?

*Hilda Dahlsten, Svenska Kraftnät and representative from other Nordic TSO*

12.10 LUNCH

Welfare effects of increased or decreased cross-border capacity

*Mats Nilsson, Swedenergy*

Will flowbased market coupling lead to better usage of transmission capacity, increased welfare and security of supply?

*Patrick Luickx, CREG, Belgium*

The impact of capacity markets on surrounding markets

*Johan Linnarsson, Sweco*

Adverse effects of capacity mechanisms on surrounding markets and how they can be mitigated

*Berit Tennbakk, THEMA Consulting*

The role of Nordic hydro power in a European perspective

*Lisa Göransson, Chalmers University of Technology*

15.10 Coffee

Concluding discussion

16.30 End
